

First Come, First Served Allocation Policy

At Snugg Homes we have adopted the below policy for first come, first served. Allocation of a property will be based on this.

At Point of a Passed Initial Assessment – We will base the allocation on whoever passes the initial assessment with a panel firm to carry out the affordability assessment, on behalf of the provider. You will not be allocated a property or added to the waiting list until you have carried out this part of the assessment.

Once you have passed the initial affordability assessment you may be added to a waiting list for the chosen scheme. You will be added in the order that the assessments are received from Metro Finance. When a plot becomes available, we will offer plots in order of the waiting list.
